DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to an apparatus for controlling the temperature of a core of a transformer, classified in class 336, subclass 55.
- II. Claims 9-16, drawn to a method for controlling the temperature of a core of a transformer, classified in class 29, subclass 602.1.
- III. Claims 17-21, drawn to an apparatus for controlling the temperature of a core transformer, classified in class 361, subclass 709.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II-III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an apparatus for controlling the temperature of a core of a transformer not using the method of invention II or the apparatus of invention III; invention II has separate utility such as a method for controlling the temperature of a core of a transformer not using the apparatus of invention I or the apparatus of invention III; invention III has separate utility such as an apparatus for controlling the temperature of a core transformer not using the apparatus of invention I or the method of invention II. See MPEP § 806.05(d).

Art Unit: 2832

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
